PROFESSIONAL SUMMARY

Results-driven Senior Full Stack Laravel Developer with **3+ years** of experience designing, developing, and maintaining scalable web applications and enterprise-grade SaaS solutions. Proven expertise in building secure RESTful APIs, multi-tenant architectures, payment systems (Stripe, Razorpay, PayPal), database scaling (MySQL, Redis), and real-time communications. A proactive problem-solver dedicated to producing clean, maintainable, and high-performance code that drives client success.

WORK EXPERIENCE

Senior Laravel Full Stack Developer

2022 – Present

Enterprise & SaaS Clients (Freelance / Contract)

Delivered 20+ projects

- Developed multi-tenant SaaS platforms featuring credit-based systems, secure subscriptions, and multiple payment gateway integrations (Stripe, PayPal, Razorpay).
- Built high-performance REST APIs secured via Sanctum with Role-Based Access Control (RBAC), 2FA security, and webhook integrations.
- Designed modular online learning platforms (LMS), matrimonial portals, and video production pipeline management tools.
- Optimized heavy database queries and structured Redis-based caching systems, reducing application load times by over 40%.
- Implemented background queue jobs, event dispatchers, and WebSockets (Pusher/Laravel Echo) to handle asynchronous workflows.
- Deployed and maintained staging and production environments on Linux servers (Ubuntu/Nginx) with standard Git workflow processes.
